"Palazzo Sant'Andrea"
In the splendid setting of Arpino, in one of the characteristic residential areas and more precisely in the "Colle" district, we offer for sale a portion of a free-standing building adjacent to Piazza Sant'Andrea.
The property is spread over three floors plus the ground floor.
The building, dating back to the end of the 1800s, was built in masonry.
It comes with unique environments and various services on each floor.
The top floor, of about 180 square meters, is the most characteristic part as it was built with very high ceilings and windows that make the room very bright.
On the ground floor there are various rooms including cellars, warehouses and deposits completely in stone.
The entire building for sale needs a complete renovation that allows you to organize the distribution of the interior spaces according to your taste and needs.
Ideal solution for lovers of historic buildings with potential renovation projects for investment use.
