#### "Arpinum Divinum"

Arpinum Divinum is a magical place where you can stop time and let yourself be pampered by the warm colors of a panoramic sunset with a breathtaking view of the ancient village of Arpino.

Located in the historic center, on the third and top floor of a historic 1700s building, this enchanting studio apartment of approximately 40 m2 is the perfect place for short and medium-term stays in which to relax and enjoy maximum well-being.

The combination of various elements such as the hydromassage tub with chromotherapy, the eighteenth-century fireplace and the panoramic view make this suite a unique and unforgettable experience.

The hydromassage tub is the beating heart of the suite: the hot water and the various massage options allow you to relax your muscles and eliminate all traces of daily stress.

Chromotherapy, thanks to its different shades of lights, promotes mental and emotional relaxation as well as creating a suggestive atmosphere that also improves mood.

This detail makes your stay in the suite special and enveloping.

The panoramic view is simply breathtaking: the two large windows overlooking the historic center offer a 360-degree view of both the town and the surrounding countryside.

Observing such a panorama while sipping a coffee or a good glass of wine near the warmth of a stone fireplace is an evocative and timeless experience.

The fireplace gives the suite a retro and welcoming touch.  
The smell of burning wood and the heat emanating from the fire create a romantic atmosphere.  
Arpinum divinum is definitely the "pamper" to indulge in for a luxury and slow experience in the verdant Ciociaria.
