In the heart of one of Roccasecca's quietest and most sought-after residential areas, on Via Querceto, we offer for sale a truly unique property: a detached house with spacious commercial spaces on the ground floor, a living space on the first floor, and a large private garden. This property is ideal for entrepreneurs, professionals, large families, and investors seeking a property with extraordinary potential.

Roccasecca, the birthplace of St. Thomas Aquinas, is one of the most dynamic centers in the province of Frosinone, appreciated for its quality of life, numerous services, and strategic location.

The town is well-connected thanks to the train station, which provides convenient access to Rome, Cassino, and Naples. Its proximity to the Casilina Regional Road and the Pontecorvo-Castrocielo toll booth on the A1 Milan-Naples motorway allow for quick connections throughout the surrounding area.

An ideal location for living in a private setting without sacrificing the convenience of travel.

What makes this property truly special is the perfect combination of living spaces and commercial space, offering endless possibilities for use and development.

The ground floor houses approximately 320 square meters of commercial space, featuring spacious, versatile spaces that can easily be adapted to any business need. Previously, they housed a restaurant, while today, part of the space is regularly used for training and leisure activities, demonstrating their remarkable flexibility and functionality.

Thanks to their generous dimensions, internal layout, and easily accessible location, these spaces represent a rare

opportunity for a restaurant, pizzeria, reception hall, corporate office, medical center, gym, beauty salon, service center, executive offices, a commercial business, or a multipurpose space.

The possibilities are practically limitless and allow you to shape the environments according to your business project.

Going up to the first floor we find the main residence, ready to be lived in immediately and kept in excellent condition.

The rooms are spacious, bright and perfectly distributed to ensure maximum living comfort.

The living area features a large and bright kitchen, ideal for everyday life, flanked by a welcoming living room designed for relaxing family moments.

The sleeping area features three generously sized bedrooms and a large, functional, and comfortable bathroom, making this home perfect for large families.

The exterior of the property represents one of its most important strengths.

At the front we find a large fully paved courtyard, embellished by the presence of two independent entrances, both equipped with a driveway gate and a pedestrian entrance.

An extremely rare feature that allows the residential section to be easily separated from the commercial section, ensuring independence, privacy, and optimal space management.

This configuration also makes the property ideal for those who want to live and work in the same place or dedicate part of the property to income.

At the back of the house is a magnificent private garden of approximately 1500 square meters, a private green space where you can fully enjoy every season.

Here you can create a splendid relaxation area, install a swimming pool, organize outdoor dinners, create a play area for children, or design an elegant ornamental garden.

A real added value that makes this property even more exclusive and difficult to find on the market.

The entire property represents an extremely versatile solution, capable of adapting to multiple needs.

It's perfect for those who want to relocate their business to a flagship location while maintaining the convenience of living in the same building, but also for those seeking an investment designed to generate income through the rental of commercial premises and a home.

At the same time, it represents an excellent opportunity for businesses and investors interested in valorizing a property with unique characteristics in one of the most sought-after areas of Roccasecca.

A solution capable of combining home, work, and investment in a single property, offering virtually unlimited development prospects and a value destined to increase over time.
